I-is that so...
Ah, Baren-no-Danna!
Yo-you know him?

So I can finally leave?
Yes thank you

My, such energy
Even though I am in the middle of a mission I cannot perform this task forgive my incompetence
Please forgive me, my Lord!
Wait, sir

Prostitute
Gengetsu
What does he usually do!?
Are you a friend of Baren-no-Danna!?
Wiiiii
Well then, Sir...
Oh?
Leave it at that.

Do tell me your wish.
.....!!!
My do you not know of me?
??
Information?
Did you not seek information?
?

"Yoi"'s Gengetsu is known as the best informant in the Land of the Rising Sun.
Informant!? You are?
From the warrior's hidden children to the stray dogs in Kyou, there is nothing that I do not know
Depending on what information may purchase depends on this however
Hmpf
How useless.
Then tell me what information the man with an eyepatch, who was here before me, bought
I cannot do that. That will influence his trust in me.
I see. So Kumau bought information from this woman.

You just thought of me as useless, did you not?
Sakichi-sama.
My name-
Currently, you are free-loading at the Kumou shrine, and you are searching for the Dokuro Hoozuki as well as the Orochi Vessel.
Ishida Sakichi-sama.
You are serving as Hashiba Hideyoshi's page.
Of course I am aware of it.
That there is nothing that I do not know
I told you, yes?
Why do you...

Where is the Orochi?
The twins are the Dokure-Hoozuki, right?
Then this will go fast.
I doubt they will honestly give up the name of the vessel
Hmpf
What will you do if I tell you?
Are you aiming for supremacy as well?
You are naive.
As if the Orochi will obey anyone.
No one knows the true fear that thing inspires.
Will it be for everyone's sake that you will get hold of it?

It will eat anything living, burn all land, and dry the ocean.
Slaughter,
terror,
despair
Its revival will be the end, the only path left will be that towards destruction.

This land will crumble in a single moment.

Do not desire the Orochi too easily.
……
Indeed, my Lord is searching for the Dokuro-Hebizuki.
however that is to make sure of the truth of the Orochi
What the Orochi really is, and if it can be of use to this country. That is what he wishes to know.
He always thinks of the people of this land before anything.
That is the kind of person that Hideyoshi-sama is.
I follow his wishes to make a peaceful world

I will promise you
that I will definitely not let the Orochi revive.

Aarrah... It is quite the bother that informants gain so many enemies.
What's going on!?

I will take my leave.
Let us meet again if we live, sir
Good grief...
Everyone just keeps going on about the Orochi...

!!
This way.
Eh?
You mentioned enemies, does that mean you are being followed?
I have seen a poison needle like that before.
Your enemy is the Iga, isn't it?

How foolish of you to run to such a narrow place.
My my, sir had best run.

Guh!
I'll take care of you one at a time.
So he brought us to a narrow place like this to even out the numbers.
From the looks of them, they seem to be averagely skilled genin.
Find an opening and run.

Eeh!?
This is Iga's and my problem...
You're an eyesore.
Shut up and let me protect you.
I know! I won't be able to hold them off for long. So hurry up and leave!!
Sir, against that number...

That their self-proclaimed free-loader is a very outspoken and frank person.
Baren-no-Danna told me,
And then he's way too obstinate,
like some annoyingly persistent cold.
You seem like you will be a worthy rival
Hmph,
I will return those words right back at him.

You are Yui's Gengetsu...
Ashiya Yuzuki, correct?
